

# Rubbn'Repair™

**IF YOU AIN'T RUBBN'  
YOU AIN'T RACIN'!**

Rubbn'Repair™ is an advanced, patent-pending repair system with the flexibility of duct tape and the strength of a rigid, high-performance composite. These special properties make Rubbn'Repair™

a quick and effective repair system for automotive components such as hoods, fenders, and body panels.

## **BENEFITS**

*Self-adhering*

*Light weight*

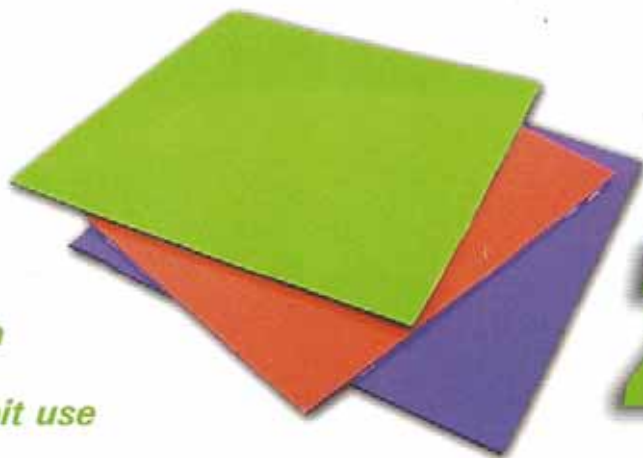

*Strong bond*

*No delamination*

*Fast repair for pit use*

*No surface preparation*

*Molds rapidly to complex surfaces*

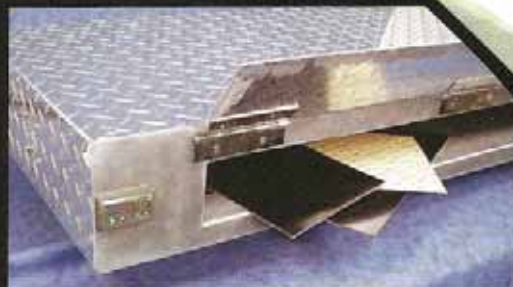

## **BLACK OR CUSTOM COLORS!\***

Request a custom color for orders over 21 square feet!  
Black is available in square foot increments up to 3'x7' sheets.

## **1 HEAT**

Heat the patch material above 90 °C (194 °F)

## **2 APPLY**

Peel off the backing. Mold the warmed patch over the area. Press to adhere.

## **3 COOL**

Patch cools and returns to a rigid state.
